What's New in the?

The Explorer on Internet Explorer 7 is not smooth or fast. If you want to surf web easily, IE7's

Explorer does not meet your needs. If you want to browse web and chat at the same time, IE7's Explorer is not satisfying for you. For those who cannot choose between surfing and chatting, IE7's Explorer is not the best tool for you. Why IEJet is better than Explorer: 1. Faster than Explorer At the same size, IEJet's Explorer can load web page faster than Explorer. 2. Support HTML 5 HTML5 is a new standard of web design, IE7's Explorer cannot fully support it. But IEJet's Explorer can support HTML 5 fully and smoothly. 3. Modern Design IE7's Explorer is a traditional browser, while IEJet's Explorer is a modern browser. This is because the browser has been developed from the ground up to give users the best browsing experience possible. IEJet's Explorer also supports CSS3, so you can take advantage of the latest browser features, such as rounded corners, gradient

effects, smooth scrolling and more. Features: There are many features in IEJet's Explorer: 1. Smooth Browsing IEJet's Explorer can achieve smooth browsing on internet. No matter on which device or web site, its speed and speed is just as you expected. 2. More Functions Besides the common features, it also provides a number of other functions. For example: it can cache the web page; it can download the font file to support the on-demand loading; it can check if there is other browser that is running on internet, and open a window for you to get switch to IEJet's explorer; it can integrate with the Yahoo! Toolbar, so you can search web page on Yahoo! directly from the Explorer; you can save your web page to local storage as your favorite. 3. Ad Free It can browse web page without any annoying ad window. Tips: 1. Internet Explorer 7: 2. Older version of Internet

Explorer 7 (6.0, 6.5, 7.0): 3. ActiveX control: 4. Fonts: 5. If the web page has animation, please move the mouse continuously to avoid the overlapping of the animation. (If the bug appears, please try to clear the cache from IE 8 first.) Message from the Manufacturer: 1. ActiveX control is a virus to computer, please don't install it or even save it on your computer. 2. To protect your computer, please close the program at once if you see the warning message, such as 'Explorer had a problem, please restart the computer', or 'Explorer had a problem, can not continue'. 3. If
