What's New in the?

----- You can build a professional web gallery with ease. MyWebGallery includes a powerful data structure for image selection, web tools for thumbnail creation, gallery selection, page and frame layout, page and frame image processing, and a large set of styles. You can import or create your own styles. Now you can make your own web gallery in a few easy steps. You will start with the design of a simple gallery using MyWebGallery's flexible page and frame structure. Then you can edit your gallery's look and design and create thumbnails for the images in the gallery. Once you have a basic gallery, you can create a new web page and frame for it. Your images will be automatically imported into the frame. You can now build a web page layout for this gallery and preview it before publishing it to the Internet. After you have finished the preview, just save your work to the hard drive and publish your web gallery to the Internet. MyWebGallery is the perfect tool to make your own web gallery.
